EXTRACT OF THE OFFICIAL PROCEEDINGS OF THE COUNCIL OF THE PARISH OF ST. BERNARD, STATE OF LOUISIANA, TAKEN AT A REGULAR MEETING HELD IN THE COUNCIL CHAMBERS OF THE ST. BERNARD PARISH GOVERNMENT COMPLEX, 8201 WEST JUDGE PEREZ DRIVE, CHALMETTE, LOUISIANA ON TUESDAY, MARCH 17, 2026 AT THREE O'CLOCK P.M.

On motion of Mr. Everhardt, seconded by Mr. McCloskey, it was moved to **adopt** the following resolution:

RESOLUTION SBPC #2620-03-26

A RESOLUTION OPPOSING CARBON CAPTURE AND SEQUESTRATION IN ST. BERNARD PARISH.

WHEREAS, the St. Bernard Parish Council recognizes its duty to protect the health, safety, property, and welfare of the citizens of St. Bernard Parish and to preserve the parish's natural resources, including clean air, safe drinking water, productive agricultural land, and a stable environment for current and future generations; and,

WHEREAS, Carbon Capture and Sequestration (CCS) projects, which involve the capture, transportation, and underground injection of carbon dioxide (CO₂), have raised significant public concern within St. Bernard Parish and throughout the State of Louisiana regarding potential impacts on public safety, groundwater, soil stability, private property, and local ecosystems; and,

WHEREAS, incidents in other jurisdictions have demonstrated that CO₂ pipeline ruptures and underground storage failures can pose serious health and safety hazards, particularly in rural areas with limited emergency response capacity; and,

WHEREAS, the long-term monitoring, liability, and environmental oversight of CCS projects uncertain, and the potential risks and remain financial burdens may ultimately be borne by local governments, landowners, and taxpayers; and,

NOW THEREFORE, BE IT RESOLVED, that the St. Bernard Parish Council, the Governing Authority, does hereby formally oppose the siting, permitting, construction, or operation of any Carbon Capture and Sequestration (CCS) project or associated CO₂ pipeline infrastructure within the boundaries of St. Bernard Parish unless and until such technologies are independently verified by credible, peer-reviewed scientific evidence to be safe, effective, and fully supported by the informed consent of the residents of St. Bernard Parish.
