RESOLUTION

RESOLUTION NO. 1222

STATE OF LOUISIANA
PARISH OF CAMERON

A RESOLUTION OF THE CAMERON PARISH POLICE JURY STATE ("CPPJ") OF LOUISIANA, SUPPORTING LOCAL OPTION AUTHORITY REGARDING CARBON CAPTURE AND STORAGE ("CCS") FACILITIES

WHEREAS, the State of Louisiana is considering legislation that impacts environmental management and industrial practices across the state; and

WHEREAS, carbon capture and storage facilities have significant environmental, social, and economic implications for local communities; and

WHEREAS, such projects require careful consideration of local geographic, environmental, and socio-economic conditions; and

WHEREAS, the **CPPJ** recognizes its fundamental duty and importance of maintaining local control and decisions that directly affect the health, safety, and welfare of its citizens of Cameron Parish, along with preserving the fragile coastal environment, including wetlands and groundwater resources; and

WHEREAS, the **CPPJ** has been made aware that these projects may pose future risks to the people and natural resources of the Parish, including, but not limited to, precious groundwater used as public drinking water supply and crop irrigation supply, where currently, these risks do not exist; and

WHEREAS, the Federal Government has deemed Carbon Dioxide a material hazardous to the environment and has passed Tax Credit legislation for the Sequestration of said material; and

WHEREAS, the principle of local autonomy ensures that decisions regarding land use and environmental management are made by those who directly experience their outcomes.

NOW, THEREFORE, BE IT RESOLVED, the **CPPJ** hereby opposes the permitting, development, or construction of any additional Class VI carbon injection wells within the jurisdiction of Cameron Parish beyond those currently authorized.

BE IT FURTHER RESOLVED by the **CPPJ**, that:

1. The **CPPJ** supports the granting of local option authority to each parish in the State of Louisiana to decide on the approval, denial, or regulation of carbon capture and storage facilities within their respective boundaries.

2. The **CPPJ** urges the Louisiana State Legislature to consider and respect the diverse needs and desires of individual parishes by allowing them the autonomy to make informed decisions about **CCS** projects that best suit their local constituents.

3. The **CPPJ** urges the Louisiana Department of Energy and Natural Resources, the U.S. Environmental Protection Agency, and the Governor of Louisiana to respect and uphold the parish's opposition to additional Class VI well permits and to ensure that no further authorizations are granted without the full consent of the local governing authority.

4. The **CPPJ** calls upon the Louisiana Legislature and the United States Congress to enact stronger protections and provide local governments with meaningful authority, including mandatory community consultation, local oversight, emergency preparedness coordination, liability coverage, and stricter State and Federal safety and financial liability standards.

5. The **CPPJ** requests that this resolution be communicated to the appropriate legislative committees and representatives involved in the upcoming session, emphasizing the need for local decision-making authority in environmental and industrial practices.

THUS APPROVED AND ADOPTED by the following votes of the Cameron Parish Police Jury, in special session convened on the 14th day of October 2025, with the vote recorded as follows:

YEAS: Ronald Nunez, Jr., Magnus McGee, Mark Daigle, Sam Bordelon and Johnny Watson

NAYS: Michael Fewell

ABSENT OR NOT VOTING: Ron Johnson

Ronald Nunez, Jr., President
Cameron Parish Police Jury

ATTEST:

Mary B. Carroll, Secretary
