State of Louisiana

Parish of Vernon

REGULAR MEETING: NOVEMBER 17, 2025

RESOLUTION No. 48 of 2025

RESOLUTION

A RESOLUTION OPPOSING CARBON CAPTURE AND SEQUESTRATION IN VERNON PARISH

WHEREAS, the Vernon Parish Police Jury recognizes its duty to protect the health, safety, property, and welfare of the citizens of Vernon Parish and to preserve the parish's natural resources, including clean air, safe drinking water, productive agricultural land, and a stable environment for current and future generations; and

WHEREAS, Carbon Capture and Sequestration (CCS) projects, which involve the capture, transportation, and underground injection of carbon dioxide (CO_2), have raised significant public concern within Vernon Parish and throughout the State of Louisiana regarding potential impacts on public safety, groundwater, soil stability, private property, and local ecosystems; and

WHEREAS, incidents in other jurisdictions have demonstrated that CO_2 pipeline ruptures and underground storage failures can pose serious health and safety hazards, particularly in rural areas with limited emergency response capacity; and

WHEREAS, the long-term monitoring, liability, and environmental oversight of CCS projects remain uncertain, and the potential risks and financial burdens may ultimately be borne by local governments, landowners, and taxpayers;

NOW, BE IT RESOLVED that the Vernon Parish Police Jury hereby formally opposes the siting, permitting, construction, or operation of any Carbon Capture and Sequestration (CCS) project or associated CO_2 pipeline infrastructure within the boundaries of Vernon Parish unless and until such technologies are independently verified by credible, peer-reviewed scientific evidence to be safe, effective, and fully supported by the informed consent of the residents of Vernon Parish; and

BE IT FURTHER RESOLVED that the Vernon Parish Police Jury urges the Governor of Louisiana, the Louisiana Department of Natural Resources, the Louisiana Department of Environmental Quality, and all relevant state and federal agencies to give full and careful consideration to the concerns of local governments and citizens when evaluating CCS proposals.

On motion by Mr. Steven "Quintin" Thompson, seconded by Mr. Alton "David" Fox and carried, the foregoing resolution was unanimously adopted on this the 17th day of November, 2025, at which meeting a quorum was present.
